Oracle Critical Patch Update - July 2022

July 22, 2022 — v1.0

TLP:WHITE

History:

- *22/07/2022 — v1.0 – Initial publication*

Summary

On July 19th, 2022, Oracle released their quarterly Critical Patch Update advisory, a collection of patches that addresses **multiple critical security flaws**, affecting several of their products [1]. Many of these vulnerabilities may be **remotely exploited without the need for user credentials**. It is therefore highly recommended to **apply the security patches without delay**.

Technical Details

The July 2022 Critical Patch Update contains **349 new security patches**, many of which tackle critical vulnerabilities that are easily exploitable and can lead to system takeover, Denial of Service (DOS), and unauthorised creation, deletion or modification access to critical data [2].

Affected Products

The following 37 Oracle product families are affected. For further details (e.g., affected versions), please consult Oracle's official page [1, 2]:

- Oracle Database Server
- Oracle Autonomous Health Framework
- Oracle Berkeley DB
- Oracle Big Data Graph
- Oracle Blockchain Platform
- Oracle Essbase
- Oracle Global Lifecycle Management
- Oracle GoldenGate
- Oracle Graph Server and Client
- Oracle NoSQL Database
- Oracle REST Data Services
- Oracle Spatial Studio
- Oracle SQL Developer
- Oracle TimesTen In-Memory Database

- Oracle Commerce
- Oracle Communications Applications
- Oracle Communications
- Oracle Construction and Engineering
- Oracle E-Business Suite
- Oracle Enterprise Manager
- Oracle Financial Services Applications
- Oracle Food and Beverage Applications
- Oracle Fusion Middleware
- Oracle Health Sciences Applications
- Oracle HealthCare Applications
- Oracle Hospitality Applications
- Oracle Java SE
- Oracle JD Edwards
- Oracle MySQL
- Oracle PeopleSoft
- Oracle Policy Automation
- Oracle Retail Applications
- Oracle Siebel CRM
- Oracle Supply Chain
- Oracle Systems
- Oracle Utilities Applications
- Oracle Virtualization

Recommendations

It is recommended to apply the patches for all affected products as soon as possible.
